Forecast for Tuesday 13 Apr 2021

Weather: Fine and dry with variable amounts of cloud, and warm sunny spells. By lunchtime showers will develop across the region, with increasing cloud amounts. Showers easing, with further clear spells overnight.

Chance of cloud free mountain/hill tops above 600m: 60% becoming 90% by mid-afternoon.

Visibility: Visibilities will be good, becoming very good throughout the day as cloud lifts from obscuring summits above 600m in the morning to be above summit tops by mid-afternoon. In and around showers visibilities will temporarily deteriorate as cloud bases drop to 800m.

Meteorologist's View

Still feeling rather chilly at times, despite sunny spells and the freezing level being above the tops. Moderate UV levels, so protection from the sun recommended.

Forecast for Wednesday 14 Apr 2021

Weather: A cold start with some fog patches in valleys, though these will clear quickly through the morning. Then, a bright day with sunny spells. In the afternoon skies will likely become cloudier with the odd isolated shower developing. Further clear spells expected by the evening and overnight.

Maximum wind: Northeasterly 5-10mph gusts of 15mph.

Chance of cloud free mountain/hill tops above 600m: Near 100% becoming 80% by lunchtime.

Visibility: Visibilities will mostly be very good through the day, though it will be poor in any fog to start. Some temporary deteriorations likely in the afternoon in and around showers as cloud bases fall to 700m.

Temperature: **Valleys:** Plus 1 Celsius becoming Plus 10 Celsius.
At 600m: Minus 1 Celsius becoming Plus 4 Celsius.
Freezing level: Above the summits.
